

EVIENNA BENTLEY. PRODUCTION COORDINATOR

Originally a Live Events Coordinator, I moved into the film industry during the Pandemic. I have over 10 years' experience of running large scale bespoke events; managing logistics, budgets, documentation, contracts, shipping, accommodation, travel and negotiating between high profile artists with specific requests.

Having originally started in the Covid department I have now settled in the Production team, and have recently stepped up to Production Coordinator, having gained experience **with Child Licensing, Clearances, Engine, Set Keeper, Scenechronize, DPO, EZYPO, Movie Magic Scheduling, Final Draft, Cast Contracts** and an in depth understanding of Production requirements.

Through my relationship with Nightsky Studios I have gained a hands-on understanding of the implementation of Virtual Production and LED Screen technology, along with the processes and protocols required to enable smooth integration of emerging creative mediums.
