

MATTHEW THOMSON. SOUND RECORDIST

*Bases in Dublin/Limerick/Belfast

I have two decades experience working in the Film and TV industry throughout Ireland and extensively abroad. In that time I have gained experience in Commercials, Drama, Documentary, Entertainment Programming and Live Broadcast and I currently sit on the committee of Screen Audio Ireland. Being a perfectionist by nature, I strive to achieve the best with the ability to work to deadlines and perform highly under pressure. I have a strong work ethic, as well as a comprehensive understanding of professional protocols and health and safety required on location. As an outgoing person, I communicate easily within a crew and understand the value of listening to my peers. I can tailor my services to suit any production and have a vast array of the latest equipment to suit productions large and small.
